adexsi UK

@adexsiuk adexsi-uk

adesmoke® maintains smoke safety in Full Sutton.

OVERVIEW:

Adexsi UK have completed major refurbishment works to the Life Safety Smoke Extract Systems within HMP Full Sutton.

Working with the MoJ, ISG Plc, Protec & Bestall, new systems were supplied and installed in A,B,C,D,E,F,G wings, CASU Unit and Medical Block.

Each building required a bespoke design to MoJ - NOMS 50 specification, due to changes of use during their lifetime.

OUTCOME:

CFD design's and Live Smoke Evacuation test's were undertaken in each facility to confirm the suitability of these essential systems and Certification provided to the current NOMS Specifications.

With a new 1,440 place category C resettlement prison to be built alongside HMP Full Sutton ADEXSI UK look forward to continued assistance for the Ministry of Justice at this Facility.
