

## Smoke Safety in Full Sutton

### Overview:

Adexsi UK have completed major refurbishment works to the Life Safety Smoke Extract Systems within HMP Full Sutton.

Working with the MoJ, ISG Plc, Protec & Bestall, new AdeSmoke® systems were supplied and installed in A,B,C,D,E,F,G wings, CASU Unit and Medical Block.

Each building required a bespoke design to MoJ-NOMS 50 specification, due to changes of use during their lifetime.

CFD design's and Live Smoke Evacuation tests were undertaken in each facility to confirm the suitability of these essential systems and Certification provided to the current NOMS Specifications.

With a new 1,440 place category C resettlement prison to be built alongside HMP Full Sutton, ADEXSI UK look forward to continued assistance for the Ministry of Justice at this Facility.
