

## THE BUILDING A SAFER FUTURE CHARTER

### DECLARATION OF COMMITMENT

The Charter Commitments are a key mechanism to drive the culture change and action required to improve building safety by making improvements to current practice and behaviours and put safety first above all other factors.

In signing this declaration your organisation will become a Registered Signatory to the Charter and in doing so, you are making a commitment to instil the spirit and commitment of the Charter across your organisation.

#### The Charter Commitments

**Commitment 1** - Collaborate to spearhead culture change and be the voice of building safety across our sector.

**Commitment 2** - Be transparent in the interests of safety, sharing key information with residents, clients, contractors and statutory bodies in a useful and accessible manner in the design, construction and occupation phases of the process.

**Commitment 3** - Make safety a key factor of choice in who we work with, ensuring that building safety is placed at the centre of selection decisions without compromising quality or value for money.

**Commitment 4** - Ensure that the voices and safety of residents, visitors and employees are central in our decision making process.

**Commitment 5** - Set out and communicate clear responsibilities within our organisation and with our partners, ensuring everyone with a stake in the building during design, construction and occupation understands their role and has the time and resources they need to achieve and maintain building safety.

I understand, and agree, that the status of Registered Signatory does not confer any rights to the use of the Building a Safer Future logo or brand identity. I understand that any internal or external communications about the organisation being a Registered Signatory or any aspect of the organisation in relation to the Building a Safer Future Charter will be done so in accordance with, and adhering to, these [Guidelines](#).

I further understand that as a Registered Signatory the organisation may not make any claims in relation to building safety as a result of this status, and that being a Registered Signatory of the Charter does not represent any endorsement of the organisations approach to building safety.

**I confirm the commitment of my organisation to the Building a Safer Future Charter.**
