

Waterloo Towers, London

Overview:

Adexsi UK have provided AdeSmoke® systems to the refurbishment of Waterloo Towers.

“The Shell Centre, in London, is one of the two central offices, and serves as the registered address, of oil major Shell (the other, its main headquarters, is in The Hague). It is located on Belvedere Road in the London Borough of Lambeth.

It is a prominent feature on the South Bank of the River Thames near County Hall, and now forms the backdrop to the London Eye.”

Outcome:

Working with our customer Michael J Lonsdale, Adexsi designed and installed an AdeSmoke® system to meet the clients requirements.
