

Hydro Harrogate

Overview:

The Hydro is undergoing an extension and refurbishment of the existing facilities.

Including a 400sqm fitness suite, sauna and steam suite, improved reception and café facilities. Overhaul of the pool area, gym and leisure facilities, new diving platform, reconfigured car park, complimentary landscaping, bicycle storage & electric vehicle charging points.

Decarbonisation including replacing gas boilers with air source heat pumps and solar panels, as well as new metering and energy monitoring and control systems.

The proposed design will include an AdeSmoke® automated fire curtain.
